

India's No. 1 BLDC fans
with 1 crore+ happy customers

**Product
catalogue**

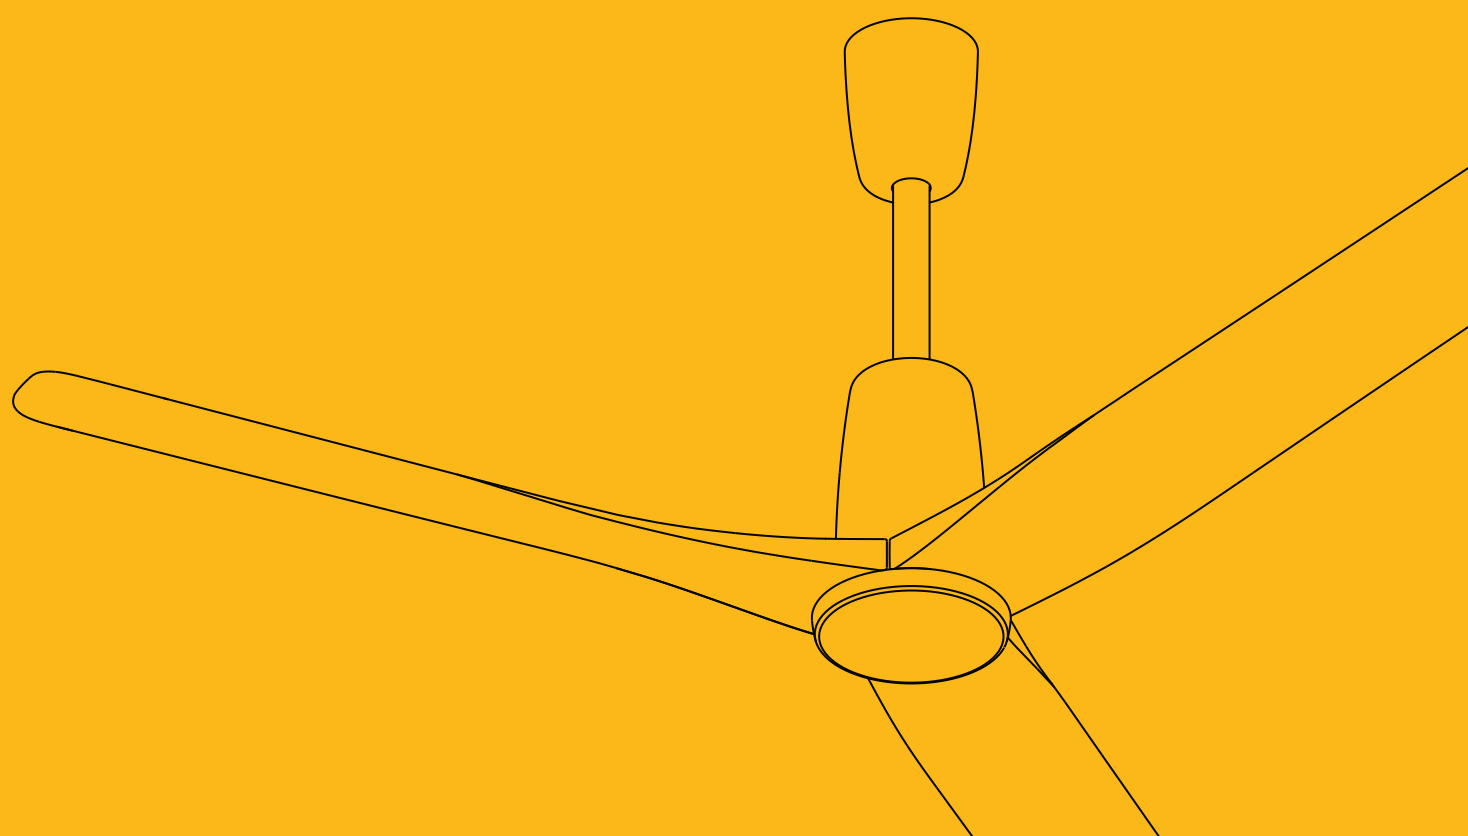

Summer 2025

Our fan, proudly made in India, is designed to deliver the best quality. It has undergone 34 stringent checks by independent certified labs, so you can enjoy a worry-free experience. But on the rare chance you do need help, our service executives, across 16,000+ pincodes, are always ready to assist you at your doorstep.

We're so glad you're joining our community of 1 crore+ happy customers and 35,000+ retailers who share our passion for innovative design, cutting-edge tech, and a greener planet. Fun fact: by choosing our 5-star rated BLDC fan, you're helping reduce up to 1,500 KGs of CO₂ emissions over the next 10 years. That's equivalent to planting 60 trees! Plus, you'll also save up to ₹15,000 on electricity bills.

Pretty cool, right?

Our esteemed
clients

Our journey

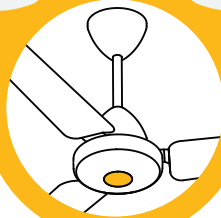

2015

Ventured into consumer durables by launching ceiling fans. Sold 500 fans in the first month

2012

Incubated at Society of Innovation & Entrepreneurship (SINE) in IIT Bombay

2016

Started Online Sales : became a B2C and D2C brand

2018

Entered offline retail market

2019

Sold 1 lakh fans & expanded to 150 cities

2020

Established across 30k retail partners

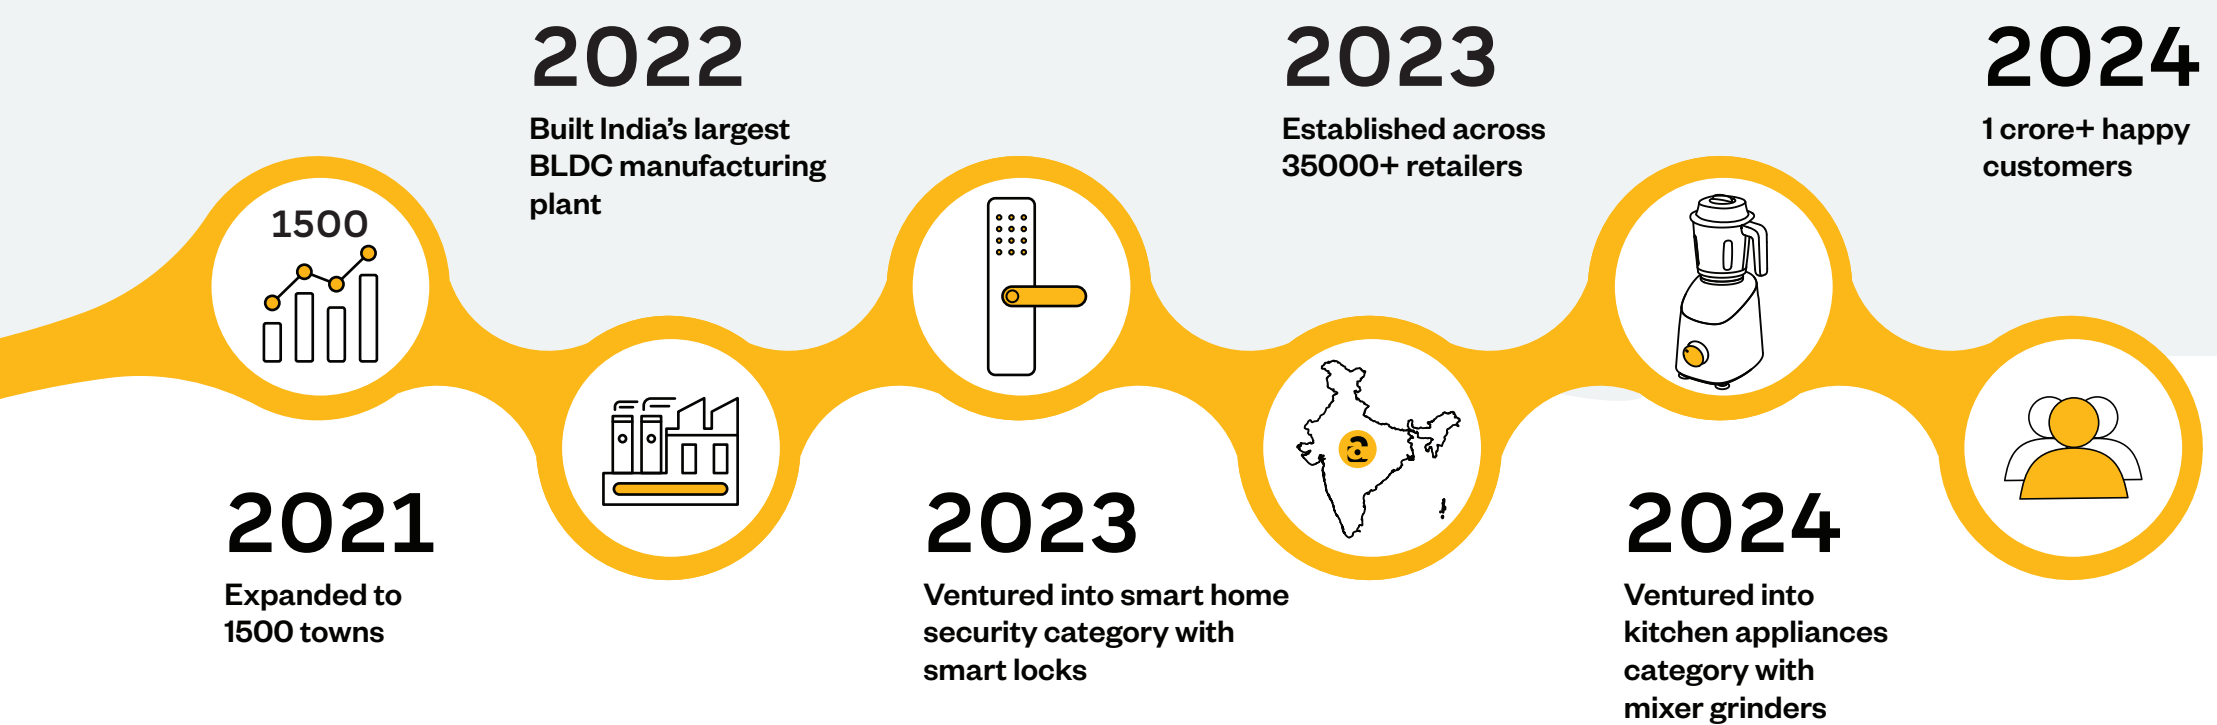

Sprawling manufacturing facility

High-tech assembly lines

India's largest BLDC fan plant

A state-of-the-art manufacturing unit

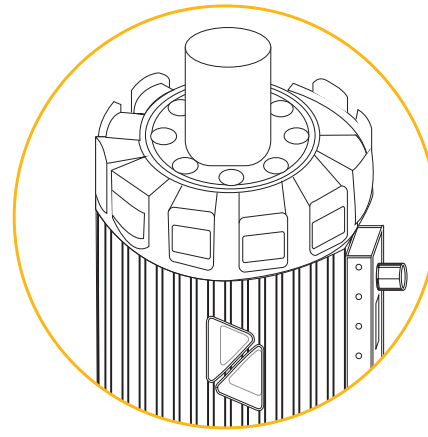

Highly trained work force

Robust quality checks

- Spread over 2,00,000 sq. ft.
- Designed and manufactured in Pune, India

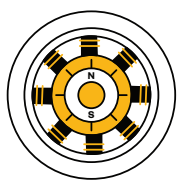

Revolutionary BLDC technology

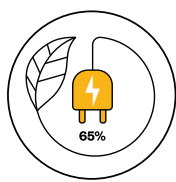

The power behind our fans

BLDC (Brushless Direct Current) motors feature a single winding and powerful permanent magnets, with commutation managed by advanced electronics. Our fans utilize a proprietary sensorless algorithm, ensuring efficient performance while consuming only 35W at top speed.

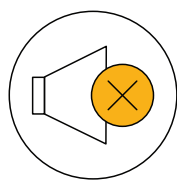

Benefits of BLDC technology

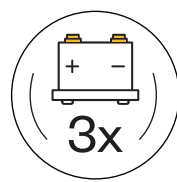

Energy efficient
BLDC motor

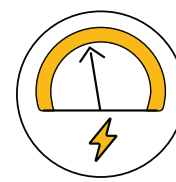

Up to 65%
electricity
savings

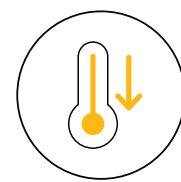

Low
noise

Runs up to 3x
longer
on inverter

Consistent
speed even at
fluctuating voltage

No motor
over heating

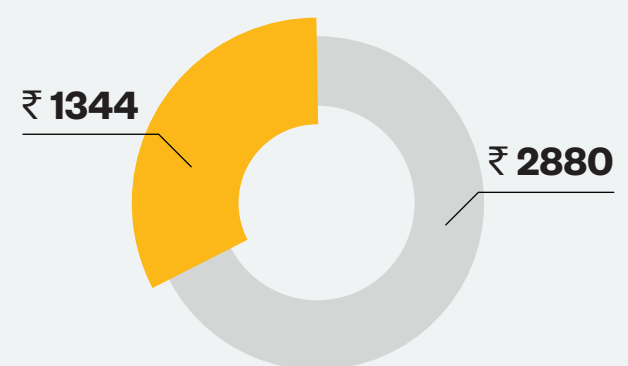

The perfect blend of style & savings

Wattage (W)

Energy use/year* (kWh)

Electricity cost/year in ₹

Savings/year ~ ₹ 1500

*Assumptions:

usage of 16 hours/day, for 300 days a year with
electricity rate of ₹8/unit

Atomberg fan

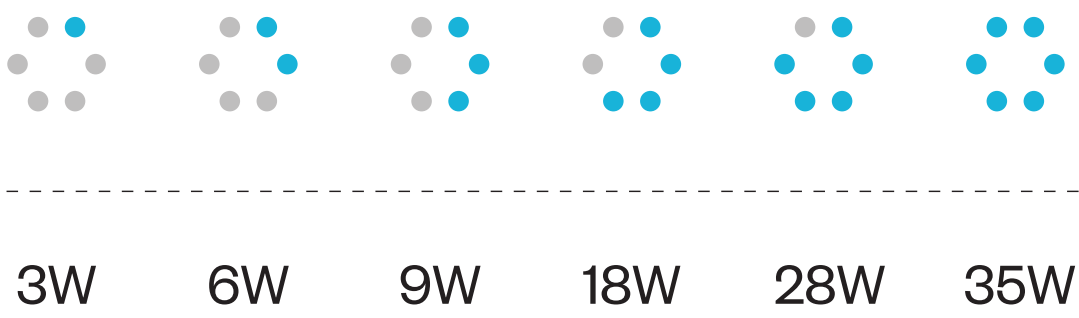

Unrated fan

Power consumption at each speed

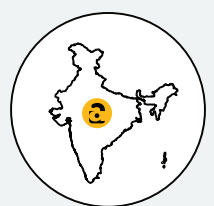

The power consumption of the Atomberg Renesa series fans vary with the speed at which they are set. At speed 3, they consume less power than an LED bulb.

Speed

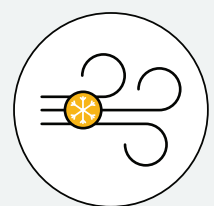

These specifications apply to the Atomberg Renesa series 1200mm fan. Performance may vary across models.

Why choose us?

India's No. 1 BLDC fans

High air delivery

Remote operated

IoT-enabled smart fans

Highest rated fans across E-commerce platforms

Home service at 16000+ Pin Codes

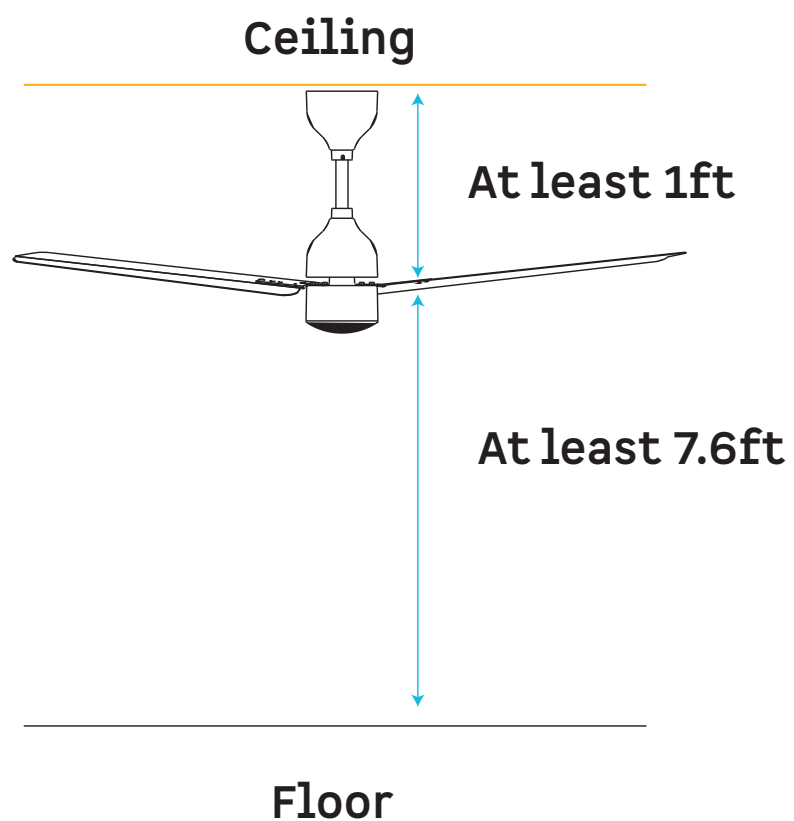

Get the most out of your ceiling fan

Air delivery, not RPM, impacts airflow

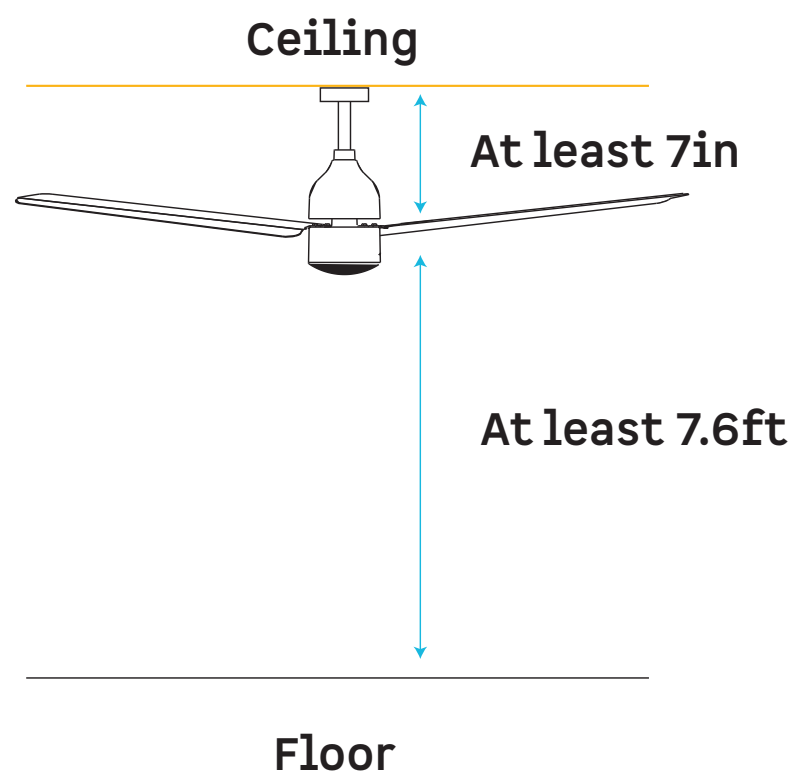

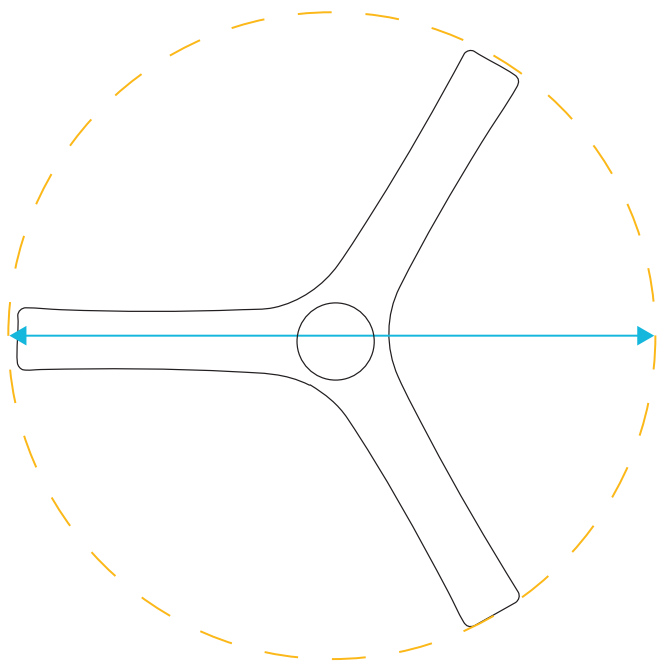

Ideal placement for optimal air delivery

Top canopy
for standard ceiling

Ceiling plate
for false or low ceiling

Why is 'sweep size' important?

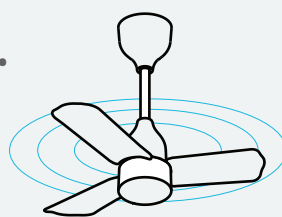

Sweep size is the diameter of the fan. A ceiling fan's air delivery is proportional to its sweep size. The larger your room, the larger the sweep size that you need.

SMALL ROOM

1. <30 sqft
2. 30-65 sqft
